

**Faculty, Section of Endocrine Surgery  
Division of Surgical Oncology  
Department of Surgery  
Beth Israel Deaconess Medical Center  
Boston, MA**

The Department of Surgery at Beth Israel Deaconess Medical Center is seeking an academic endocrine surgeon to serve in the Division of Surgical Oncology. Experience in thyroid, parathyroid and adrenal surgery, with minimally invasive and innovative expertise in thyroid radiofrequency ablation is desired.

Responsibilities will include patient care and supervision of medical students and surgery residents. A track record of academic productivity is essential as the candidate will be expected to be involved actively in the research program of the division. Academic appointment as an Instructor or Assistant Professor at Harvard Medical School will be commensurate with experience, training and achievements in the field.

Suitable candidates must be board certified/eligible in surgery and have completed an endocrine surgery fellowship or complex general surgical oncologic fellowship at an ACGME-accredited program.
