

AAES STRATEGIC PLAN

NOVEMBER 2016

OUR MISSION

Our goal is to discover and promote the best treatments for endocrine disease to help improve our patients' lives.

The American Association of Endocrine Surgeons (AAES) is dedicated to the advancement of the science and art of endocrine surgery. The AAES is committed to providing surgical expertise in diseases of the thyroid, parathyroid, adrenal glands as well as in neuroendocrine tumors of the pancreas and GI tract.

OUR GOALS

1. To clearly define the role of AAES in the comprehensive care of endocrine patients and training of endocrine surgeons
2. To find the ideal organizational blueprint to advance the AAES.
3. To communicate the importance and value of the field of endocrine surgery and strengthen the role of the AAES.
4. To ensure that the AAES provides value to every member of our community

Endocrine Surgery is the discipline of surgical management of endocrine disorders, including the understanding of the disease process, technical mastery and comprehensive care of surgical endocrine disease of the neck and abdomen.
